

Flexibility valuation - ROCBA Analysis

We use our specifically designed Real Options Cost Benefit Analysis (ROCBA) tool to compare traditional reinforcement options with flexible services.

The tool helps us to ensure we're making the most economically efficient decisions for our customers whilst also ensuring our network is able to meet future needs. It does this by comparing..

It produces a net present value for each solution which we use to inform a decision on which strategy to proceed with.

You can learn more about our ROCBA tool [here](#)
